PRODUCT DESCRIPTION

Achieve precision and efficiency with the E4G CB-800A Wheel Balancer. Designed for professionals seeking reliable and accurate wheel balancing, this advanced machine combines cutting-edge technology with user-friendly features to handle most modern wheel designs. Its sleek LED monitor with 5 displays and robust construction promise durability and ease of use in a professional setting. Equipped with independently developed software, it guarantees unmatched stability and accuracy for every job. From passenger cars to *motorcycles, this balancer adapts seamlessly with its multiple balancing methods, including ALU, ALUS, MOTO, DYN, and STA modes. Whether you're fine-tuning precision or managing larger tyres, its self-calibration feature ensures optimal performance while prolonging the machine's lifespan. *Motorcycle adapter is required- see optional extras

FEATURES

- **LED Monitor Display:** Clear and concise data presentation from 5 displays for seamless operation.
- **Enhanced Durability:** Independently developed software and self-calibration ensure long-term performance.
- **High Accuracy:** Balancing accuracy of $\pm 1g$ for exceptional precision.
- **Automatic & Manual Inputs:** Automatic data entry for distance and rim; manual entry for width.
- **Brake:** Automatic
- **Multiple Balancing Methods:** Includes ALU, ALUS, MOTO, DYN, and STA modes, offering versatility for different wheel types. Request our Bulletin which illustrates different balancing methods.

- **User-Friendly Weight Positioning:** Laser-guided weight placement for ALUS mode and standard positions for other modes.
- **Unit Conversion Options:** Easily switch between grams/ounces and millimetres/inches.
- **Accessories:** 4 Cones, including Ford Transit Cone, Width Caliper, Weight Pliers, Wing Nut and 100gram Calibration Weight.

OPTIONAL EXTRAS

- Motorcycle Balancing Kit Type 1 E4G MB003
- Motorcycle Balancing Kit Type 2 E4G MB004
- Centreless Wheel Adapter E4G D002

SPECIFICATION

Efficient, precise, and dependable, the E4G CB-800A Wheel Balancer encompassing the above features and the following specification is an essential tool for any tyre or workshop.

Model	E4G CB-800A
Rim Diameter	10"-24"
Rim Width	1.5" - 20"
Tyre Size	up to 44"
Weigh Capacity	65Kg
Power supply	230v
Motor	1ph
