PRODUCT DESCRIPTION

Achieve flawless wheel balancing with unrivalled efficiency. The E4G CB-850 combines advanced technology with user-friendly features, enabling technicians to provide top-notch service. Whether you're working with motorcycle wheels or automotive tyres, this equipment ensures precise weight distribution with an impressive unbalancing accuracy of $\pm 1g$.

With features like an automatic tyre gauge, multi-balancing options, and an innovative laser-alignment system for weight placement, the CB-850 delivers enhanced operational efficiency. The protective hood ensures effortless and safe usage during operation, while the self-calibration program guarantees a long service life.

Designed for versatility, the machine handles a wide range of wheel dimensions and includes additional adapters for motorcycles. Its solid build, LED monitor with 2 data displays, and superior motor power ensure seamless operation in even the busiest garage environments.

FEATURES

- **LED Monitor Display:** Clear and concise data presentation from 5 displays for seamless operation.
- **Enhanced Durability:** Independently developed software and self-calibration ensure long-term performance.
- **High Accuracy:** Balancing accuracy of $\pm 1g$ for exceptional precision.
- **Automatic & Manual Inputs:** Automatic data entry for distance and rim; manual entry for width.
- **Multiple Balancing Methods:** Includes ALU, ALUS, MOTO, DYN, and STA modes, offering versatility for different wheel types.
- **Brake:** Automatic
- **User-Friendly Weight Positioning:** Laser-guided weight placement for ALUS mode and standard positions for other modes.
- **Unit Conversion Options:** Easily switch between grams/ounces and millimetres/inches.
- **Accessories:** 4 Cones, including Ford Transit Cone, Width Caliper, Wing Nut and 100gram Calibration Weight.

Requirements

- Requires 4 Litres 32 Grade Hydraulic Oil.

Part Number: E4G 3205
